

10. MINIMUM REST PERIODS

10.1 Rest Period (Before the Flight)

The minimum rest, which must be provided before undertaking a flight duty period, shall be:

a) At least as long as the preceding duty period,

OR

- b) i) 12 hours
- ii) 18 hours for crossing more than 3, up to 7 time zones
- iii) 36 hours for crossing more than 7 time zones

whichever is greater.

Note 1: When a crew is positioned within the 'acclimatized' zone to operate a flight (not within the purview of Para12), the rest after the positioning and before the flight will be 12 hrs, provided that rest stipulated at Para 10.1 above has been availed prior to the positioning.

Note 2: For a Flight Crew operating between 3 to 7 Time Zones, and proceeding to farther Time Zones, the crew shall be provided a minimum rest, at lay over station, as per para 10.1, before proceeding beyond on the next Flight Duty Period. The Time Zone difference for subsequent flight will be calculated from the place where the crew is acclimatized.

Note 3: In case a flight crew returns to duty after leave, the minimum rest period of 10 hrs (from 0000hrs) shall be given. The leaves shall be considered as local days.

10.2 For all other duties, apart from Flight Duty/ Mixed Duty, a minimum rest period of 10 hours shall be given. Operators to define the same in their FDTL Scheme.

10.3 Rest Period After Standby

10.3.1 When any period of standby finishes, 12 hrs rest shall be given.

10.3.2 When standby culminates in to a duty, then the rest period shall be decided based on total period of duty i.e. the duty plus the percentage of standby counted for duty.

10.4 If the preceding duty period, which includes any time spent on positioning, exceeds 18 hours, then the ensuing rest period shall include a local night

10.5 The operator shall include in the 'Scheme' the optimum time of transportation after taking into account various factors and on ensuring that the rest period does not get reduced below the minimum rest requirements. Period of transportation to and from an airport shall neither be counted towards duty time

nor rest period. However, if the transportation time is more than 30 minutes, the rest shall increase by twice of time above 30 minutes.

10.6 Weekly Rest

An operator shall ensure that the minimum weekly rest of continuous 48 hours including two local nights is provided such that there shall never be more than 168 hours between the end of one weekly rest period and the start of the next.

Note 1: The operator shall provide weekly rest at Home Base/Temporary Home Base.

Note 2: The 168 hours shall be calculated from the end of preceding weekly rest period.

10.6.1 The weekly rest shall be increased to 60 hours including 2 local nights in the event that the crew undertakes more than 3 duties wherein the flight duty period encroaches in to the Night Duty period, in the preceding 168 hrs. period.

10.7 Rest After Return to Home Base

Operator shall ensure that effects on flight crew members of time zone differences will be compensated by additional rest. Minimum rest including local nights shall be given to any flight crew member after return to home base, if the flight crew who has crossed more than the specified time zones wherein the crew has operated flight(s) away from home base according to the Table given below:

Time Zone difference	Rest (in Hours)	Local Nights
More than 3 and up to 7	36	2
More than 7	72	3

11. STANDBY

11.1 General

11.1.1 Operators shall include 'Standby' as part of their regular rosters and concerned flight crew shall be kept notified.

11.2 Standby Period

11.2.1 Standby period shall not extend beyond 12 hours. However, a maximum standby at airport (with or without sleeping quarters) shall not exceed 8 hours.

11.2.2 If the standby period is at the airport and

- a) Standby culminates into a flight duty then the total period (i.e. 100%) shall be counted towards the flight duty period and also towards cumulative duty period.
- b) Standby does not culminate into a flight duty then the total period (i.e. 100%) shall be counted towards cumulative duty period.

11.2.3 If the standby period is at home or in a hotel and culminates into duty

- a) Within first 6 hours then no part of standby shall be considered as part of flight duty period or cumulative duty period.
- b) At 6 hours or later then flight duty period shall be reduced by 50% of the standby time.

11.2.4 If standby period is at home or in a hotel and does not culminate into a duty then, 25% of its time shall be considered under cumulative duty.

12. POSITIONING

- 12.1 All the time spent on positioning on the behest of the operator shall be counted as duty.
- 12.2 Positioning time should be a part of a flight duty period when it immediately precedes (i.e. without an intervening rest period) a flight duty period in which that person participates as a flight crew member.
- 12.3 Positioning after operating a flight duty period without an intervening rest period shall be counted as duty period for determining the rest period.
- 12.4 Positioning should not count as an operating sector when planning or calculating a flight duty period.

Positioning shall be counted as a landing, if after a positioning journey, the crew spends less than the minimum rest period at suitable accommodation provided by the operator, and then extends FDP using Split Duty.

13. CONSECUTIVE NIGHT OPERATION

- 13.1 Flight crew shall neither be detailed nor undertake any flight duty between periods embracing 0000 to 0600 hrs local time for more than two consecutive nights except once within a period of 168 hours.
- 13.2 For a flight crew member remaining less than 48 hours away from home-base/domicile time, two consecutive nights is estimated to be referred to local time at the point of first departure of flight schedule
- 13.3 Flight crew shall also not be detailed or undertake any duty between the hours of 0000 to 0600 hrs prior to utilizing the provisions of 13.1 above.

- 13.4 When a crew has undertaken duties in consecutive nights, then for transition to flights beyond period 0000 to 0600 hrs, he/ she should not be scheduled for a flight which is commencing prior to, at least 24 hrs including one local night from arrival of the flight and prior to company local night plus 2 hrs.

14. TRAINING FLIGHTS

- 14.1 Whenever training flight is conducted by the Flight Crew, before or after operating a commercial operation, entire such period including training flight shall count for Flight Duty Time/Flight Time/number of landings etc.
- 14.2 The Training flights are conducted beyond the provisions of table 6.1.1 as Base Training Flights then the following provisions shall apply:

Base Training for 18+2 Landings

Base training may be conducted with a maximum of up to 18 landings and additional 02 landings which may be carried out by the trainer for positioning the aircraft within 11 hours of flight duty time and 6 hours of flying time with applicable restrictions of WOCL and the following:

- 14.2.1 The first landing for positioning the aircraft may be a Commercial Operations. The landing for positioning back of aircraft has to be a Non-Commercial Operations.
- 14.2.2 Any training apart from base training may be done on the 02-Positioning flights i.e. SLF, Route Checks etc.
- 14.2.3 In case Base training is carried out at night encroaching WOCL, to the extent of full 20 landings, then additional rest of 12 hours to be given including one local night apart from the minimum rest mandated.
- 14.2.4 Before assigning the trainer and the trainee for base training flight the crew member must be provided with the minimum rest period as laid down in para 10.

15. ULTRA LONG RANGE (ULR)

- 15.1 Operator wherein the specific city pair approval is required, shall submit a specific scheme in accordance with the provisions laid down in the CAR.
- 15.2 DGCA may validate such flights for the crew alertness if the operator uses prescriptive regulations. It will, however, be preferable that the Operator adopts FRMS for continuously monitoring of the crew alertness.
- 15.3 Designated flight crew rest facilities shall be provided on board aircraft. These rest facilities shall comprise not less than two independent rest areas with horizontal bunks and shall provide an environment that is conducive to rest/sleep.

15.4 Each ULR flight is to be operated by no less than four (4) pilots of whom two (2) must be pilot-in-command qualified for the route. The duty flight crew shall comprise at least two pilots of which one crew member is Pilot-in-Command qualified.

15.5 The Operations Manual shall contain specific instructions to ensure that the ULR flight meets the following requirements:

15.5.1 ULR Pre-Flight and In-Flight Rest Planning

15.5.1.1 Scheme shall be established to provide guidance to the flight crew on the expected pre-flight preparations and in-flight rest to be taken. Flight crew are to be appropriately rested for the ULR flight.

15.5.1.2 The in-flight rest plan shall provide for at least one (1) rest period which shall not be less than four (4) hours.

15.5.2 Post ULR Flight Rest Period

Flight Crew of the ULR Flight on return to Home Base shall be provided with a period of least 120 hours free of all duties. The rest period shall increase by 24 hours after 02 consecutive ULR flights. This rest period will include both, 'the rest on return to base', as specified at para 10.8 and the 'weekly rest' as specified at para 10.6.

16. UNFORSEEN OPERATIONAL CIRCUMSTANCES

16.1 Flight Time, Flight Duty Period and Landing may be extended due to unforeseen operational circumstances as follows:

- a) Flight Time by maximum of 01 hour.
- b) FDP by maximum of 02 hours.
- c) Only one extra landing may be carried out in the event of a diversion to complete the flight, including a consecutive night for completion of the flight.
- d) The above is subject to a cumulative limit of maximum of 04 hours (Flight Time) and maximum of 08 hrs (FDP) during any period of 28 consecutive days.
- e) In event of Flight Duty Period extension up to 01 hour or Flight Time extension up to 30 minutes, the rest shall increase by 02 hours.
- f) In event of Flight Duty Period extension beyond 01 hour or Flight Time extension beyond 30 minutes, the rest shall increase by 04 hours.
- g) Extension of the maximum basic FDP shall not be combined with split duty in the same duty period.
- h) In case of not utilizing any flight time after commencement of FDP (Reporting) the crew can be utilized after a minimum of twice the time period spent after reporting subject to a minimum limit of 12 hours of rest.

Note 1: Provisions of only para 8.1 to 8.4 can be extended by the limits specified in 16.1 (a) and 16.1 (b).

Note 2: PIC in consultation with other Flight Crew members will convey their willingness or consent to the Head of Operations for operating the flight.

Note 3: Head of Operations will submit a quarterly report to the DGCA on all the extensions granted under the provisions of Para 16.1.

17. MAINTENANCE OF RECORDS AND MONITORING SYSTEM

17.1 Records

Records shall be kept for 18 months of the duties performed and the rest periods provided so as to facilitate inspection by the operator's authorized personnel and surveillance/audit by DGCA officers. The records may be made available to flight crew on request.

17.2 The Operator should ensure that these records include for each flight crew member, at least:

- i) Start, duration and end of each flight duty period.
- ii) Start, duration and end of each duty period.
- iii) Rest periods.
- iv) Flight time.
- v) Cumulative flight time as per Para 8 of this CAR.

Note: For record purposes, the pre-flight report time shall count both as duty and as flight duty, and the post-flight allowance shall count as duty.

17.3 The operator shall also keep records of occasions when flight time and duty were extended as per Para 16 of this CAR.

17.4 If discretion was used for similar reasons on more than 20% of occasions when a particular route or a route pattern is flown, for the seasonal schedule or minimum of 28 Flight Duty Periods, then the operator shall review and change the schedule or the crew scheduling arrangements so as to reduce the frequency at which such events occur.

17.5 In addition, DGCA may require submission of copies and analysis of records in the manner deemed fit.

17.6 Operator shall ensure that the Flight crew members shall maintain a personal record of their daily flight time, duty period, flight duty period and rest periods.

17.7 Above maybe achieved through a fool proof, transparent, computerized system. The operator shall evolve a system so that only designated officers of the operator have access to the system. Further, the system shall have a provision of audit trail so that any change made in the data may be tracked down to its source.

- 17.8 The operator, through the computerized system shall ensure that the flight crew member is well within the flight time, flight duty period, duty period and rest period requirements before permitting him to operate a flight.
