

Risk 1: Liability & Claims Exposure Due to Weak Consignment Documentation Control

1. **Category:** Compliance / Legal / Financial
 2. **Priority:** High
 3. **Likelihood:** Medium
 4. **Impact:** Disputes on carrier liability; inability to defend claims; non-compliance during audits.
 5. **Business Impact:** High claims payout, customer churn, litigation cost, reputational damage.
 6. **Mitigation:**
 1. Mandatory LR completeness + invoice/declared value validation rules.
 2. Evidence bundle per shipment (pickup proof, scan trail, seal checks, POD).
 3. Periodic compliance audit + exception reporting.
-

Risk 2: Overloading / Unsafe Handling Risk Leading to Accident and Regulatory Action

1. **Category:** Safety / Compliance
 2. **Priority:** High
 3. **Likelihood:** Medium
 4. **Impact:** Accident risk, detention, penalties, injury/fatality exposure.
 5. **Business Impact:** Insurance premium hikes, operational disruption, major legal exposure.
 6. **Mitigation:**
 1. Weight capture at pickup/hub with variance checks vs booking weight.
 2. Driver safety program + route risk controls + fatigue management.
 3. Vendor/contractor enforcement: fines, suspension for violations.
-

Risk 3: Third-Party Fleet/Subcontractor Non-Compliance (Permits, Insurance, Driver Verification)

1. **Category:** Third Party / Compliance
2. **Priority:** High
3. **Likelihood:** Medium
4. **Impact:** Carrier held accountable for subcontractor violations; service disruption.
5. **Business Impact:** Regulatory penalties, delivery delays, customer trust loss.

6. **Mitigation:**

1. Approved vendor registry + onboarding checklist + periodic renewal verification.
2. Contract clauses for compliance + audit rights + penalty framework.
3. Real-time dispatch checks integrated into TMS (cannot assign non-compliant vehicle).

Risk 4: Weak Grievance Redressal & Customer Communication Control

1. **Category:** Customer / Operational
2. **Priority:** Medium
3. **Likelihood:** High
4. **Impact:** Complaints not addressed in time; disputes escalate to legal notices.
5. **Business Impact:** Churn, negative brand perception, operational overhead.
6. **Mitigation:**
 1. Ticketing + SLA-based escalation + customer visibility portal.
 2. Standard claim workflow with documented evidence requirements.
 3. Root-cause analytics by hub/route/handler with monthly management review.
