

AI DISCOVERY WORKSHOP

FROM AWARENESS TO ACTION – AI FOR BUSINESS LEADERS

**A PRACTICAL, HANDS-ON EXECUTIVE WORKSHOP
BY VARDAAAN**

Convert AI awareness into measurable outcomes through live use cases, responsible governance, and a 90-day adoption roadmap.

WHY THIS WORKSHOP

Most organizations are stuck in AI hype:

- AI impact feels unclear and adoption is stalled
- Privacy, security, and compliance concerns slow decisions
- No structured roadmap or ROI clarity

This workshop closes the gap between curiosity and execution.

WHAT YOU'LL GAIN

Clear understanding of what AI can & cannot do

Responsible AI frameworks for risk & governance

Hands-on tool usage on your business problems

Customized 90-day AI plan with milestones

Methods to save time, improve quality, scale output

KEY FOCUS AREAS

Strategy, Governance & ROI

- Identify and prioritize high-impact use cases
- Define safe, responsible AI policies

Data Analysis & Communication

- Turn raw data into decision-ready insights
- Improve accuracy, clarity, and speed

Productivity & Business Impact

- Faster reports and analysis
- Better executive summaries
